

Consultation for Parents re: Ontario Education System

<https://www.ontario.ca/page/for-the-parents>

As shared in the Deputy Minister's letter on September 28, the government launched the first phase of provincial consultation on education reform.

The online submission form seeks feedback from interested individuals, organizations, and groups on any of the consultation topics. There is a submission form at www.fortheparents.ca and we encourage you to fill it out.

The next phase of the consultation will take place through scheduled Telephone Town Hall sessions across the province. We encourage you to share the following opportunity with your school councils, and community members.

To participate in the Ontario Telephone individuals should visit the [Telephone Town Hall section](#) of the consultation website.

Contacting your local MPP to inform them of the importance of the PRO Grants for parents and to ensure their continuance is also another way to let our government know the vital role these grants are for parents.

Information (including upcoming Telephone Town Hall sessions) will continue be shared at the above website.
