

March 1, 2020

Congratulations to the Ontario Catholic School Trustees Association on turning 90 years young!

On behalf of the Ontario Association of Parents in Catholic Education I extend best wishes for this milestone and celebration!

We are very honoured and proud to have such a wonderful partnership with OCSTA that has grown and blossomed over the years. As partners in Catholic Education the importance of our relationship lies in the values that both our organizations bring, that is to the parent voice; OAPCE represents the voice of parents from across the province where as OCSTA represents the trustees that are elected by parents to be their voice at school boards – quite the connection!

The history of OAPCE and OCSTA is also a unique one as many years ago we shared our offices at the Catholic Education Centre at the Toronto Catholic District School Board, how fitting that our two organizations have always worked together for the benefit of all our students.

It is integral for the succession and continuation of Catholic Education that we come together as partners and advocates to ensure that our gift of instilling our faith in the formation of our students continues, by working with OCSTA and all Catholic Education partners we can do this. We are only as strong as the relationships that we have, and we are honored that we have such a strong one with OCSTA.

Best wishes for the celebration of OCSTA and looking forward to celebrating with you.

Annalisa Crudo-Perri, Executive Director/Past President
